Bear with me Pedes, I know this statement is pretty discombobulated but understand that I've hardly slept and haven't eaten since Tuesday and I'm currently in my hotel room in DC packing my things to get the hell out of dodge. I feel its necessary to get my account of yesterdays events off my mind before things get fuzzy or worse that I'm arrested for being the "domestic terrorist" that they label me. This post is part of a post that I was spamming on stickied post but I added a few more details to it. I have a lot more to say but I feel like time is of the essence and I need to get out of DC.

Help me get to the top pedes... The best we can do is collect all the video footage from everyone that was in the capitol building and get it on the internet before they black out the net. Already you can see videos surfacing of the cops letting protestors in. This is why the president told us to bring video cameras. Sadly my goPro died in the middle of everything but I still have images of said cops on the stairs and high ground armed with cameras taking pictures of all the protestors. People in the crowds knew something was up, it was too weird that magically the people got through the left side and that all the cops weren't really fighting to keep us out. Nobody wanted to hurt anyone. Most protestors talked with the cops, told them to go home and we didn't want anyone to get hurt today, and they did just that. We all cheered and clapped because we didn't want violence. The ONLY cops that stood their ground were those that were guarding the entrance to what we thought was the main chamber area. They all had riot shields and as we pushed them back to maybe the middle of the hall, that's when they hit us with mace and possibly tear gas. I personally took mace to the face and had mild burns on my hands (I don't know if that was from the mace or tear gas).

The one thing that stands out in my mind more than anything is right now was the amount of "PRESS" in the crowd. There was at least one older gentleman in the crowd, that was in full riot gear with a velcro press badge on his Kevlar vest, capturing the footage of everything. There were also multiple people in the crowd with full camera rigs. This one younger gentleman that I spoke to directly had a RED camera out there. For those of you who don't know that camera cost 10's of thousands of dollars. I told him "that's a very expensive camera to have out there in that environment" (We were being hit with tear gas, rubber bullets, etc.). He said he was shooting a Documentary, but I just found the whole thing odd. There might have been members of ANTIFA / BLM / Crisis Actors among us, but I wouldn't know for sure. All I know is that I pissed off American that felt like it was my duty to get in front of the members of my government to show them a face of the people they were actively fucking over.

the rally was remotely peaceful, because the proud handled business the night before, a gentleman was stabbed or shot (if I remember correctly) about an hour or so after I left DC. That being said everyone I saw yesterday was unarmed. There was a moment when the crowd grabbed the officers batons but they threw that back behind them because I was almost hit by a rogue baton that landed at my feet inside the capitol building. The crowd threw a few empty water bottles at the cops pelting us with rubber bullets on the steps of the building but for the most part we weren't doing anything dangerous / lethal. Please note that there were a lot of women and elderly in the crowd. When I say elderly I mean saw some gentlemen that had to be at least 80 years old. The women were that were getting close were far too fragile to be in that kind of environment. I saw them mace older women mid 40 – 50's. I personally tried to help everyone that got maced after I had my mace cherry popped.

Please don't let them make it out like there it was nothing but outraged white men storming the building. At the protest there were Iranian flags , Israeli flags , Mexican flags, Puerto rican flags, rainbow flags, etc. There were white folks, black folks, Chinese folks, Hispanic folks, all patriots trying to stand up for what they believe in. Trying to stop a tyrannical communist regime being instituted in America.

There is a lot more to talk about but I need to get out of DC while I still can. Note that I'm not suicidal and I'm a very good driver and I don't speed.

Realize pedes this moment happened in the bible. They labeled Jesus as a criminal long before they had a reason to, and Jesus understood this was happening and decided to fulfill the prophecy. 31Simon, Simon, Satan has asked to sift each of you like wheat. 32But I have prayed for you, Simon, that your faith will not fail. And when you have turned back, strengthen your brothers." 33"Lord," said Peter, "I am ready to go with You even to prison and to death." 34But Jesus replied, "I tell you, Peter, the rooster will not crow today until you have denied three times that you know Me." 35Then Jesus asked them, "When I sent you out without purse or bag or sandals, did you lack anything?" "Nothing," they answered. 36"Now, however," He told them, "the one with a purse should take it, and likewise a bag; and the one without a sword should sell his cloak and buy one. 37For I tell you that this Scripture must be fulfilled in Me: 'And He was numbered with the transgressors.'c For what is written about Me is reaching its fulfillment." 38So they said, "Look, Lord, here are two swords." "That is enough," He answered. <https://radicallychristian.com/luke-2236-re-examined-sell-your-cloak-to-buy-a-sword>

I love you pedes and may God bless you all. May God have mercy on us, our families, our communities, and our country. Even our neighbors that don't agree with us politically and have been lead astray. The best we can do is to try and get the truth out there before evil snuffs us out.

It's not like we were at a fucking pride parade dude but I saw multiple flags. Trump has a gay and lesbian following. I was surprised when I went to the keep america great 2020 kick off in orlando. Hottest lesbian couple I've ever seen in my life.

Not the point the point is that it was a very diverse crowd. I was standing next to an interracial couple from texas during the speech.

I'd like to see photos of that bc I've noticed the media took pains to get images any Confederate flags around.

Idk where I can upload short vids and clips that's safe to use. I was devastated when I got back to the hotel to find that my go pro died and it didn't record anything major.
